Coming Soon: STRUNG OUT – VOLUME ONE

Strung Out, LA's finest in speedy melodic punk mayhem, is one of the hardest working bands of the last 20 years. With a career which has so far produced 7 studio albums, numerous EP's, a live album and a mind-bog-gling number of shows, they continue to be a significant staple on the indie punk scene. In celebration of their longevity and with the positive feedback from fans for both 2012's Twisted in a Suburban Wasteland tour and the remixed songs on Top Contenders, Strung Out decided to finish the job and have Ryan Greene remix all three of their classic 90's albums in their entirety. This summer will see the release of deluxe reissues of Another Day In Paradise, Suburban Teenage Wasteland Blues and Twisted By Design! Three special records that certainly deserve some special treatment, and that's what will be on offer with these reissues and the all-encompassing Volume One box set, which will include the 3 albums plus a DVD that drummer Jordan Burns details below:

05 Mar, 2013

Old Man Markley out today!

L.A. bluegrass punks Old Man Markley's latest full length, Down Side Up, is out today! The album features thirteen tracks that blur the lines between bluegrass, country, and punk. Take a look at what CMT Edge had to say. A first for us, it isn't often we get a nod from the country circuit. Beginning today, head over to Spinner to stream Down Side Up in its entirety. Produced by Fat Mike and singer Johnny Carey, the album is a cohesive, foot tapping good time. Order it here, view their tour dates and enter this contest!

27 Feb, 2013

Old Man Markley debut new song on CMT!

L.A. bluegrass punks Old Man Markley have premiered their new song "Train of Thought" today on CMT! The song is from their new album, Down Side Up, due out March 5th and available for pre-order here! The album features thirteen tracks that blur the lines between bluegrass, country and punk, like the recently released singles Blood on My Hands and Rehearsal.

- 1

The logo acts as an escape hatch. When clicked, the user will be taken back to the homepage.
- 2

2.0 The consistent nav allows for safe navigation throughout the website. The nav links “Bands” and “Media” will have drop down menu’s to go to specific pages in those categories.

2.1 The nav for the mobile version of the site will be drop down. When the menu button is clicked, the navigation will drop down underneath the search. When clicked again, the nav will disappear.
- 3

The sliding banner / CTA will be on both version of the site. The banner will contain images and text about new records together with a purchase button.
- 4

These sections will consist of images for the featured band, current tours and up-coming releases. Each image will be a link and send the user to the corresponding page.

For mobile, the “Upcoming Releases” section was removed because it wasn’t as necessary as the other two and can be found on the records page that the CTA links too.
- 5

The Radio or music player only displays the current song to reduce clutter on the page. There are also many songs on the playlist so the song selection would go on for a while. The player will be random, but the user can skip songs. It can also be opened in a new window by clicking “Fat Wreck Chords Radio.” This way the user can continue listening while he/she navigates through the site.
- 6

The poll is on both versions of the sites. Radio inputs are used for the input and then a submit input is used for the “Vote” button. Once the user votes, the button will be greyed out so that the user can only vote once.
- 7

The “News & Rumors” section will be updated on a normal bases. It’s a news feed so it will be made up of <article>s. The title will send the user to the “News” page when clicked to view the archived version of the news and rumors.
- 8

The footer contains the Socal Media icons that will link to Fat Wreck Chords social media pages. It has an email input for the Mailing List so that users can sign-up to recieve updates from Fat Wreck Chords. Under that is the basic footer information with the legal information and address. The navigation is also available in the footer for safe navigation and convenience.

Frequently Asked Questions

Do you guys take demos? How does our band get on Fat?

Oh we get demos. Shitloads of them. Mike thinks it would be lame not to accept demos, but then again, he doesn't have to listen to the things. If you must send us a demo, here is some advice: work on your songs, practice, and play shows. It takes years of hard work to be a band that people care about, and once you're there, labels will know about you. Another thing, talent is not a requirement for Fat bands, but partying skills are.

So yes, we accept demos. Send them all here:

Asian Man Records ATTN: Mike  
PO Box 35585  
Monte Soreno, CA 95030

**Who owns Fat Wreck Chords? I hear that it's a diabolical cabal that is headed up by Mr. Brett, Lee Iacocca, and Charro?**

Oooh, Charro. That would be nice. Fat Wreck Chords is an independently owned and operated record label founded by Fat Mike and his wife Erin. They still own it and they both still run the place.

**Has Fat Mike ever put a paperclip in his computer because he thought the fan was making a "funny noise", which in turn melted his hard drive?**

Yes.

**What's the biggest record on Fat?**

Some of our biggest records are: NOFX The War On Errorism, Me First and the Gimme Gimmes Have A Ball, the Rock Against Bush comps, Lagwagon Hoss, Short Music For Short People, No Use For A Name Leche Con Carne, Hi-Standard Angry Fist, and of course we've sold a boatload of the Fat Music comps. Contrary to the experts on the internet, Fat's never had any gold or platinum records

**Tell me, do you capitalist swine at least have the decency to use sweat-shop-free shirts?**

Whoa man, easy! The answer to that question is YES, almost all of the shirts we sell are sweat-shop-free and American made. There are a certain small few items that have yet to switch over, but we're getting there. The change came about when Chris Head of Anti-Flag suggested it to Fat Mike, and he was like, "Sure, dude." I know what you're thinking, "Chris Head actually speaks?" But that's an altogether different FAQ..

The "Submit a Demo" form expands when the title is clicked and then contracts or goes away when it is clicked again. The form is made up of text (email and url) inputs, a textarea, radio inputs, select/dropdown inputs and a sumbit input. Once the form is submitted, the user will see a confirmation message and the form will contract.
- 2

The "Ask a Question" form expands when the title is clicked and then contracts or goes away when it is clicked again. The form is made up of text and email inputs, a textarea, a select/dropdown input and a sumbit input. Once the form is submitted, the user will see a confirmation message and the form will contract.
- 3

This is ad space for Fat Wreck Chords to advertise their band's new records or anything of that sort. It's mainly there to fill up space.
- 4

The "Frequently Asked Questions" section displays all the answers for frequently asked questions... This can make it quicker and easier for users to find the answers to their questions. It also reduces the amount of questions that the Fat Wreck Chord's staff will recieve and spend time answering.

Bio

Chicago's Rise Against are the most rockin' thing to come outta the Midwest since the war. Featuring former members of the late great 88 Fingers Louie, these guys have the punk rock resume to back it up. This four-piece punk unit plays a punchy brand of melodic hardcore heavily influenced by bands like Bad Religion, Minor Threat, and Bad Brains. Talk about credentials!

Their debut full length, The Unraveling, is a 16-song hardcore blast that'll rattle your skull. Not only that, but these nutty Midwesterners have toured their straght edge arses off. Since the release of their first record, they've went out with AFI, Sick Of It All, NOFX, Snapcase...the list goes on!

The latest full length from Rise Against speaks for itself, as Revolutions Per Minute is one of the most celebrated releases in Fat history. RPM combines punk and hardcore with trace elements of emo for an altogether rockin' experience. Rise Against will be doing a fistful of touring in support of their new record: North American Fat Tour, European Fat Tour, Japanese Fat Tour, Warped Tour...you get the idea.

1 The band picture is also a link to the band’s photo gallery.

2 This section contains some of the main band info, band name, band members, official website and social media links.

3 This sections contains the bands biography.

4 The Radio or music player displays the current song plumore, unlike the homepage. This page is more specific so it’s more neccessary to show more songs for the user to choose. It can also be opened in a new window by clicking section title. This way the user can continue listening while he/she navigates through the site.

5 The Records section shows all the albums that the band has released. Each one has an image, name, what media it’s available on and the release date

The mobile format was just altered slightly to allow for easier viewing. The content is also seperated more to avoid user errors when selecting and album.

6 The tour dates are diplayed in this section. Each date has a corresponding location and link that the user can follow to purchase tickets for the event.

7 The last two sections are “Merch” and “Videos”. The merch section will feature some items that are available in the store on either the Fat Wreck Chords site or their own store. It was removed from the mobile site because the focus is more on the records and actual band than anything else. The Videos section just shows some music videos or other recent videos from the band. This was removed from the mobile site to help lower loading times, it’s also not that neccessary.
